

OZARRO[®]
Bath Faucets & Co.

Excellence of Craftmanship

All our products are designed and manufactured in-house thus ensuring strict quality control and maintaining the consistency of its product.

Design-Research & Development

We will help you select the right style, which meets the specific needs of your project. The CAD/CAM equipped design studio uses the latest softwares to carry out designing functions and define technical specifications.

Foundry

The selection of alloys and the experiences of our moulding technicians are essential to achieve the finished product of great quality. Brass ingots of defined compositions.

Machining

Machining is done on CNC lathes ensuring accuracy and consistency.

Tooling

The combined expertise of our toolmakers & the versatility of our equipment unite this department in the development of prototypes in readiness for product launches.

Composition :

The premium brass faucets are crafted using high-quality brass with the following composition:

- **Copper (Cu): 57%+**
- **Zinc (Zn): 32%**
- **Lead Free**
- **Other Elements: Up to 11%**
(including trace elements for enhanced durability and machinability)
(Thus we try to maintain these composition to make our product wise better than others)

Manufacturing Process

Faucet Technology

Nickel & Chrome

Upper shiny protection layer provides a mirror finish to every faucet.

- High plating thickness (Nickel: 11-14 microns & Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions.
- 450+ hours of salt spray test makes our finishes durable and corrosion resistant.
